Dear Mr. Nannenga:

This letter is a request to complete the road work that was inspected by your office and approved going into the Dove Creek Quarry operation. As noted we will use the 3-4" gravel screened from the wasted piles in the quarry. With the wet season fast approaching, we need to finish cutting in the drainage areas and get it compacted before winter sets in. With your approval, we will be finishing in the next three weeks. Most of the area is already done as inspected. If you have any concerns, please contact me at 360-904-2470.

Thank you,
